

## PROTECT YOUR CROPS FROM INSECT DAMAGE WITH CYGON® 480 EC

July 4, 2016

### **Situation:**

Pest management includes weed control by herbicides, but another major aspect of crop protection involves insect control. With the summer comes a number of harmful insect species that can decimate your crops and lower yield.

### **Solution:**

Protect your crops from insects and mites with **Cygon 480 EC** insecticide available at your local retailer. **Cygon 480 EC** works systemically and on contact to effectively control insects and mites on a variety of commodities\*

### **Insect & Arachnid Control on Registered Crops\***

CROP	PESTS CONTROLLED
