

Dichlorprop-DX[®] or Logic M[®]: Dual Action Post-Emergent Broadleaf Herbicides

May 30, 2013

Effective Crop Protection:

[Dichlorprop-DX](#) and [Logic M](#) both contain two actives (Dichlorprop-DX: Dichlorprop-D + 2,4-D; Logic M: Bromoxynil + MCPA) to effectively combat a wide variety of broadleaf weeds in your valuable crops including harder to kill weeds such as flixweed, stinkweed, wild buckwheat, kochia and volunteer canola.

Broadleaf Herbicide	Registered Crops								
	Wheat	Barley	Oats	Flax	Corn	Fall Rye	Canary Seed	Seedling Grasses	Established Grasses
Dichlorprop-DX*									
Logic M*									

Tank Mix Flexibility:

In addition to broadleaf weeds, [Dichlorprop-DX](#) and [Logic M](#) may be mixed with various tank mix partners for added grassy weed control.

Cereal Crops	Dichlorprop-DX Tank Mix Partners*	Additional Weed Control	Logic M Tank Mix Partners*	Additional Weed Control
